REMARKS

Pursuant to the discussion between the undersigned and the Examiner on July 6, 2005, applicants have filed a continuation of this case containing claims 51-70 (which are renumbered as claims 1-20 in the continuation application).

In the July 6, 2005 discussion, the Examiner indicated that it is not necessary for applicant to elect claims 1-50 in response to the June 17, 2005 Action (since claims 1-50 have already been cancelled), and that the filing of a continuation containing claims 51-70 would be responsive to the Notice of Non-Compliant Amendment.
